# Your Smart Factory in Your Pocket: Quantis AI

Unlock Efficiency | Cut Downtime | Boost Profitability

## Who We Are

**Quantis.ai**  
A Strategic Systems  
International (SSI) company

Specialists in digitizing  
beverage manufacturing  
operations within 30 days

Deployed in Coca-Cola and leading  
manufacturers across Europe

## Pocket Factory: Transforming Operations

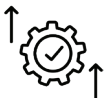

### Cost Efficiency

Reduce CAPEX & OPEX through  
predictive maintenance, real-time  
monitoring, and actionable AI insights.

### Tailored AI/ML Solutions

Detect and eliminate production  
bottlenecks—boosting efficiency  
and output.

### Seamless Integration

Seamless connection with your  
existing PLCs and sensors, minimal  
disruption, maximum results.

### Rapid Impact

Real-Time Line Monitoring |  
Intelligent Alerts | Predictive Analytics |  
Trend and KPI Dashboards

### Anywhere, Anytime Monitoring:

Stay connected to your operations with cloud-based real-time  
factory insights — total control, wherever you are.

## Key benefits of digitization

Based on research by leading consultants and industry sources

### Reduce Downtime

by up to 30%

### Extend Machine Life

by upto 20%

### Optimize Operational costs

by upto 15%

**STRATEGIC SYSTEMS**  
INTERNATIONAL

## Key Business Outcomes

Reduction in Unplanned Downtime

Real-time Line Monitoring from Anywhere

Improved Efficiency and Productivity

Fully aligned with Vision 2030 and GCC Industry 4.0 initiatives.

Helping regional manufacturers drive sustainable growth and operational excellence.

## Why QuantisAI for GCC Industries?

### Efficiency in Resource Utilization

Meet growth goals while optimizing resource use — a perfect match for KSA's Vision 2030.

### Local Relevance

Ready to empower GCC plants with smart manufacturing solutions.

### Proven Results Globally

Delivering savings and boosting efficiency for world-class manufacturers.

### Trusted Expertise

Backed by SSI's 30+ years of industrial technology leadership.

## Packed with Features

✓ Predictive Maintenance

✓ Bottleneck Detection (Time Intelligence™ Module)

✓ Energy Use Monitoring

✓ Quality Monitoring

✓ Customizable Dashboards

✓ Cloud Based Realtime Monitoring - from anywhere
