Optime' Revenue Cycle Management Platform

Driving Financial Precision. Accelerating Cash Flow.

The Challenge in Healthcare Revenue Management

Hospitals and healthcare systems face:

- Growing accounts receivable (AR) and delayed reimbursements.
- Increased claim denials and payment inefficiencies.
- Lack of visibility across the revenue cycle process.
- Compliance risks in billing and coding.

How Optime' Solves These Challenges

Powered by AI, machine learning, and predictive analytics, Optime delivers:

- Predictive modeling to flag claims likely to be denied.
- Automated pre-bill coding review for compliance assurance.
- Real-time financial dashboards to track cash flow and revenue leakage.
- Intelligent AR management tools for faster collections.

Add On

Also have an AI add on available to reduce Fraud, Waste & Abuse(FWA) automating instant checks of insurance

Results We Deliver:

10-15%
Reduction in AR days.

5-8%
